THE TEAM

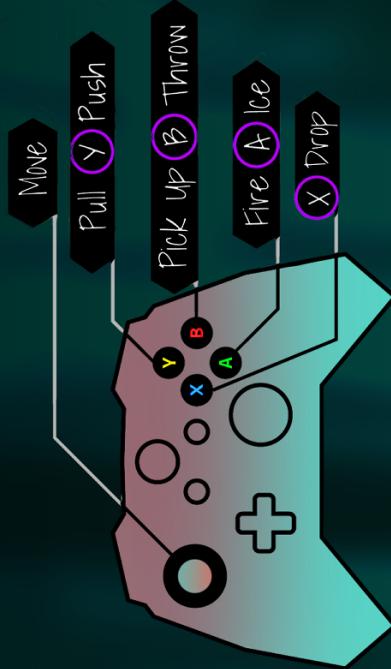

One, a master of ice. The other, a master of fire. Two unlikely allies are forced to face their worst nightmare: **working together**. Will they combine their powers to defeat the obstacles that await them? Or will their hatred lead to their demise?

Fangs and Friends is a co-op puzzle game focused on short, asynchronous game-play. It's time to pull up a friend to work together, and escape!

THE MAGE

I may be short, but I can freeze you with my ice!
